

NEWSLETTER III (M12-M18)

This period corresponds to the first half of the second year of the project. In order to gather the information available up to now, a third meeting was held in London on the 31st of May and on the 1st of June of 2018.

THE MEETING

The objective of the meeting was to pursue a technical and management overview of the project as well as to organize and communicate the planning for the next 12 months.

PROGRESS MADE IN THE PROJECT

The template has been elaborated based on the following structure: Course description, learning outcomes, keywords, how to follow this course, final quiz, bibliography and a topic list.

Along with the template, the first version of the entrepreneurial game was created. For a better understanding of the game, a video-tutorial has been created regarding the functioning of the game and its prior installation.

These games will contribute to the improvement of athletes' personal and entrepreneurial skills in order to help them in the future.

INTERIM REPORT

In order to keep a record of the progress and results achieved during the 1st year, an interim project progress report is elaborated. The final report is left for the final period of the project, when a final overview and conclusions are submitted.

NEXT STEPS

The interested athletes will submit an application through the web-site in order to participate in the program. Based on some specific criteria and following the European Legislation and principles, the athletes' selection process will start.
